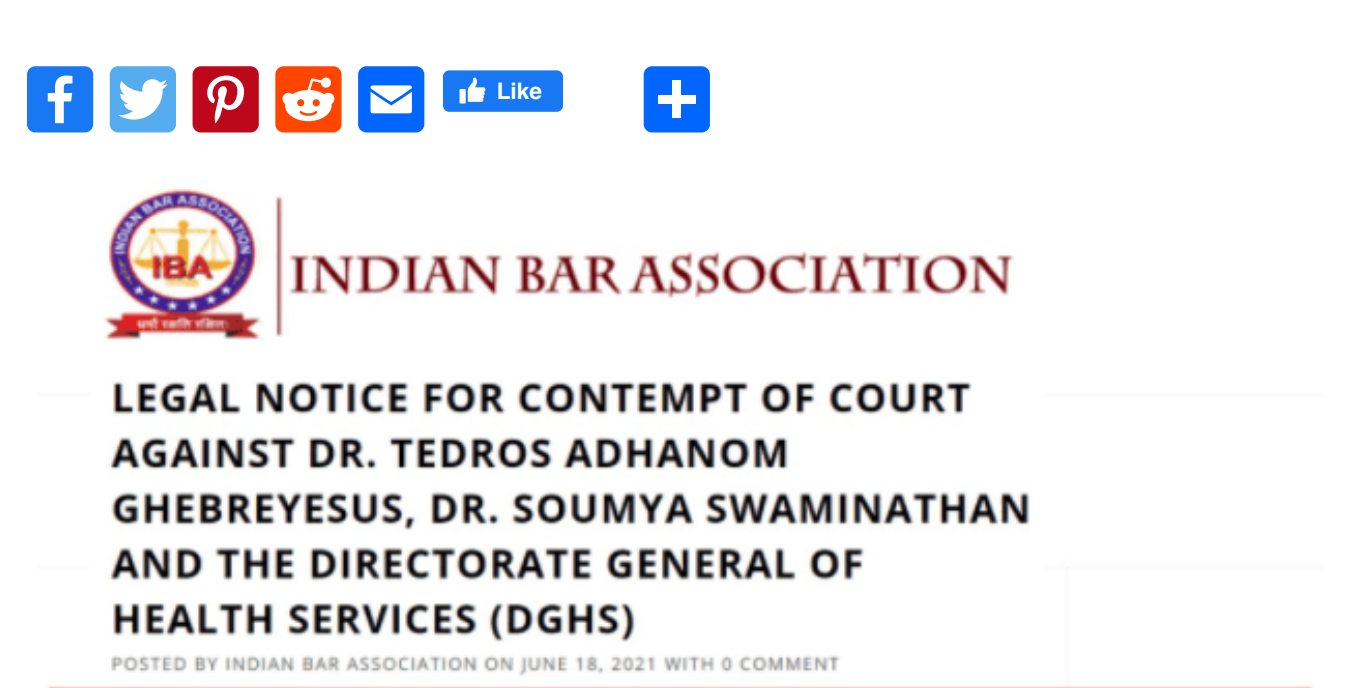
WHO LEADERSHIP FACES DEATH PENALTY IN INDIA FOR MURDER THROUGH MEDICAL MISINFORMATION ON IVERMECTIN AND HCQ

Posted on July 14, 2021 by State of the Nation



INDIAN BAR ASSOCIATION

LEGAL NOTICE FOR CONTEMPT OF COURT AGAINST DR. TEDROS ADHANOM GHEBREYESUS, DR. SOUMYA SWAMINATHAN AND THE DIRECTORATE GENERAL OF HEALTH SERVICES (DGHS)

POSTED BY INDIAN BAR ASSOCIATION ON JUNE 18, 2021 WITH 0 COMMENT

If approved as a covid-19 treatment, Ivermectin could even threaten the Emergency Use Authorisation granted to covid-19 vaccines.

IBA

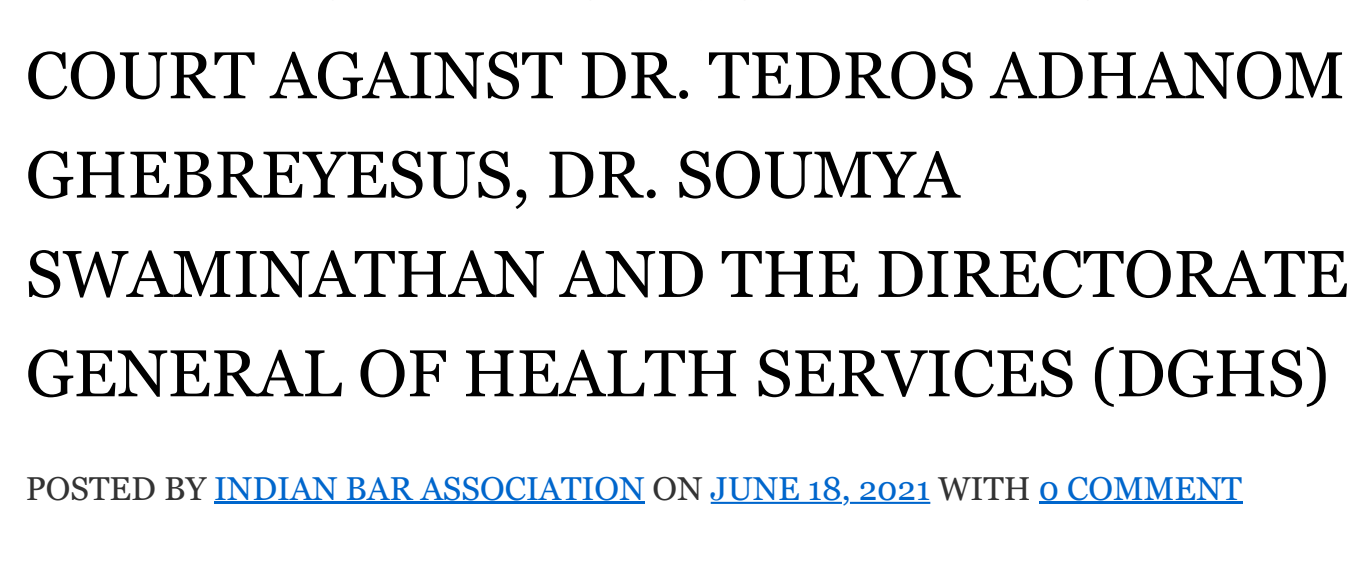
SILVIEW.media

by Silviu "Silview" Costinescu
tapnewswire.com

The rare media reports on this case only mention WHO's chief scientist, but after obtaining the original legal notice from IBA, we find out that Tedros and one more doctor are equally indicted.
The best part is that they repeatedly use the term "conspiracy", and, finally, someone uses it correctly.

LEGAL NOTICE FOR CONTEMPT OF COURT AGAINST DR. TEDROS ADHANOM GHEBREYESUS, DR. SOUMYA SWAMINATHAN AND THE DIRECTORATE GENERAL OF HEALTH SERVICES (DGHS)

POSTED BY INDIAN BAR ASSOCIATION ON JUNE 18, 2021 WITH 0 COMMENT



LEGAL NOTICE FOR CONTEMPT OF COURT AGAINST DR. TEDROS ADHANOM GHEBREYESUS, DR. SOUMYA SWAMINATHAN AND THE DIRECTORATE GENERAL OF HEALTH SERVICES (DGHS)

The accused are served legal notice for their attempt to undermine the authority of the Bombay High Court and obstruct the use of Ivermectin for Covid-19 treatment.

Subject: Contempt of Court and aggravated offences against humanity by spreading disinformation about the drug 'Ivermectin', despite having full knowledge of the Judgment passed by the Hon'ble High Court of Bombay at Goa dated May 28, 2021

Ref: 1) IN THE HIGH COURT OF BOMBAY AT GOA
PIL WP NO. 1216 OF 2021
MAPUSA Advocates Forum ...Petitioner
Versus
State of Goa & Ors. ...Respondents

2) Earlier legal notice dated 25th May, 2021 served upon you.

3) Your earlier tweet of 10th May, 2021 which you have deleted after the legal notice was served upon you.

4) Second tweet dated 7th June, 2021.

1. The present notice is being served upon you for your deliberate and continuous acts of criminal offences against humanity.

2. That, on 9th May, 2021, the State Government of Goa announced the use of 'Ivermectin' for treatment of Covid-19.

DOWNLOAD

On 13th June 2021, Indian Bar Association has served a notice upon Dr.Tedros Adhanom Ghebreyesus, Director General, World Health Organisation, Dr.Soumya Swaminathan, the Chief Scientist at WHO and Prof. (Dr.) Sunil Kumar for contempt of judgment of Bombay High Court.

The Bombay High Court vide its judgment dated 28th May 2021 has already given a green signal for use of Ivermectin for treatment of Covid-19.

Despite this, all the three contemnors have hatched a conspiracy and by spreading misinformation through media, are fuelling confusion amongst doctors by introducing Guidelines allegedly published on 27th May 2021 by DGHS, which are in fact not mandatory and are overruled by the judgment of Bombay High Court dated 28thMay 2021.

The State Government of Goa, in their affidavit filed before Bombay High Court, has specifically pointed out that the WHO advisory against the use of Ivermectin is flawed and the research showed that the Ivermectin is effective for treatment of COVID-19. The Bombay High Court on 28th May 2021, after considering WHO advisory and all other contentions of the rival parties, came to the conclusion that the use of Ivermectin cannot be stopped. The High Court has also taken the note of the guidelines dated 17th May 2021 issued by **Indian Council of Medical Research** (ICMR), thereby advocating the use of Ivermectin.

Thereafter, a detailed and impactful article was published by the leading newspaper 'Free Press Journal' on 6th June 2021 (updated on 14th June 2021) wherein the author has articulated very well as to how the advisories of WHO are dubious.

https://www.freepressjournal.in/india/covid-19-are-whos-directives-being-taken-seriously-on-the-ground

Surprisingly, in its first, the Directorate of Health Services (DGHA) on 27th May, 2021 announced **'Comprehensive Guidelines for Management of COVID-19 patients'** which excludes Ivermectin and several popular drugs.

It is worthwhile to note that DGHS is a repository of technical knowledge and is an attached organisation of the Ministry of Health & Family Welfare. The Guidelines/National Protocol have always been issued by the Joint Task Force of All India Institute of Medical Science (AIIMS) and Indian Council for Medical Research (ICMR) under the aegis of Government of India. Moreover, the document containing these impugned Guidelines does mention version/date and does not carry logos of Government of India, ICMR and AIIMS,suggesting lack of consensus between DGHS and the Joint Task Force.

Now, in order to diminish the impact of the article published on 6th June, 2021, the main accused Dr. Soumya Swaminathan hatched a conspiracy and managed some media houses to publish news on 7th June, 2021 for appreciating the overruled guidelines dated 27th May, 2021. Some of these media houses have showed astounding alacrity in publishing news hailing removal of Ivermectin and other drugs, thereby deliberately ignoring the mountains of clinical data on effectiveness of Ivermectin in treatment of COVID-19.

These impugned Guidelines issued by DGHS were circulated first on 7th June 2021, without any mention of the judgment of Bombay High Court dated 28thMay, 2021, which in fact is against the said guidelines, rendering these guidelines as null and void.

As per the judgment of Supreme Court of India, the person responsible for spreading information with object of creating confusion and to obstruct and undermine the judgment of court is liable for punishment under contempt of Court. Sections like 505,192,302, 115,109,409,120(B) of the Indian Penal Code are also attracted against the accused in this case, as their intention was to kill several people to fulfil their ulterior purposes.

The maximum punishment in above cases is death penalty.

The notice states that Dr. Soumya Swaminathan and the WHO are dishonest and have no scientific evidences to back their advisories and such loose statements are issued from time to time, to serve their ulterior purposes.

The relevant part of the notice reads this:

"**53.1.** Each time and particularly from following specific instances, it is sufficiently proved that You Notice 1 & 2 do not possess any authentic and scientific evidences;

i) When the earlier Notice was served on Notice 1 on 25.05.2021, she has neither replied to the notice nor has she approached any court of law against us. On the contrary, she chose to delete the controversial tweet advising against the use of Ivermectin for COVID-19;

ii) When the Health Secretary of the State Government of Goa relying on affidavit of Under Secretary of Union of India made their submission on oath before Hon'ble High Court, with specific allegations against WHO that there are reports which have ***observed that the analysis by WHO on this medicine (IVERMECTIN) is flawed and that the mortality rate is actually much lower if the said medicine is used for early treatment as well as prophylaxis,*** neither you Notice 1 or 2 chose to produce any proof to counter the said report. As a result, Hon'ble High Court has refused to accept the advisory of WHO.

iii) When All India Institute of Medical Science (AIIMS) had published a statement on 24.05.2021 that there is no evidence to predict the third wave and its effect on children, you Notice 1 did not give any **"Evidence"** in support of your statement dated 25.05.2021 which was contrary to the said statement of AIIMS.

After you Notice 1 were served with legal notice on 25.05.2021, you feared for being exposed and being summoned in Court of Law and therefore you Notice 1 took a U turn and stated that there is no sufficient evidence to suggest that children would be affected in the third wave.

The agenda of misinformation is also exposed in the statement published in Press Bureau of India on June 8, 2021

"It is a piece of misinformation that subsequent waves of the COVID-19 pandemic are going to cause severe illness in children. There is no data – either from India or globally – to show that children will be seriously infected in subsequent waves."

53.2. So it is crystal clear that You Notice 1 & 2 do not have scientific evidence except jugglery of words and you are thoroughly intellectually dishonest people who are playing with the lives and livelihood of the common people across the world.

However, in order to expose your intellectual dishonesty to the entire world, this notice is being served, calling for an explanation within 7 days of the receipt of this notice."

The legal notice also explains the law of damages in India citing recently cases where Court had ordered compensation of Rs. 100 Crores ((USD 13.5 mn) to the aggrieved party, for loss of his reputation. Since the present matter involves death caused due to denial of early treatment resulting in deterioration and death of person, the damages claimed would be much higher that Rs. 100 Crores.

The notice also explains the liability of Dr. Tedros Adhanom Ghebreyesus, Director General of WHO, for his act of commission and omission and also for his implied consent to the conspiracy.

In the similar manner, the DGHS Prof. (Dr.) Sunil Kumar is joined in as co-accused for his complicity in the conspiracy.

The three possible explanations for such an intense opposition to the use of highly promising, well-tolerated off-label medicine as Ivermectin are explained very well in following article:

WHO Celebrates As Indian Health Regulator Removes Ivermectin from Its Covid-19 Protocol | naked capitalism

- "As a generic, Ivermectin is cheap and widely available, which means there would be a lot less money to be made by Big Pharma if it became the go-to early-stage treatment against covid.
- Other pharmaceutical companies are developing their own novel treatments for Covid-19 which would have to compete directly with Ivermectin.
- **If approved as a covid-19 treatment, Ivermectin could even threaten the Emergency Use Authorisation granted to covid-19 vaccines.**

It's worth noting that while India's DGHS has dumped most cheap off-patent treatment options against Covid, including even multivitamins, more expensive patented medicines continue to get the green light. They include Gilead's prohibitively expensive antiviral Remdesivir, which DGHS continues to recommend for "select moderate/ severe hospitalised COVID-19 patients", even though "it is only an experimental drug with potential to harm." It has also authorised the use of the anti-inflammatory medicine to cilizumab, which costs hundreds of dollars a dose." – IBA

I'm not very optimistic, I see this as another attempt to cement the existence of a fake virus in the collective mental, but either way this goes, the implications are huge. Consider that WHO didn't act alone, Big Tech, mass-mediots and politicians would be affected by the same logic and principles.
And if this falls flat, it's only going to signal more corruption to the general population.

BUT, MOST IMPORTANTLY, IF THESE DRUGS ARE OFFICIALLY RECOGNIZED AS EFFICIENT AGAINST COVID-19, THEN THERE HAS NEVER BEEN A LEGAL BASIS FOR EMERGENCY STATES / EMERGENCY AUTHORIZATIONS FOR EXPERIMENTAL INJECTIONS DISGUISED AS VACCINES

> ***If approved as a covid-19 treatment, Ivermectin could even threaten***
> ***the Emergency Use Authorisation granted to covid-19 vaccines.***
>

DEMAND FROM INDIA TO #ARRESTDRTEDROS GROWS LOUDER ON SOCIAL MEDIA

Goa Chronicle 11/04/20200

World Health Organization
World Health Organization
World Health Organization

Dr Tedros Adhanom Ghebreyesus, Director-General, World Health Organisation

Panjim: The call from journalist and social activist Savio Rodrigues encouraging people of India to raise their voices on social media platform Twitter demanding arrest Dr Tedros Adhanom Ghebreyesus is growing louder.

#ArrestDrTedros is currently trending in India.

Savio Rodrigues is the Founder & Editor-in-Chief of GoaChronicle.com. The online new portal has been exposing the complicit role of Dr Tedros during the coronavirus pandemic due to his closeness with China. In fact, Rodrigues, opines that China backed Dr Tedros to the position of Director-General of the World Health Organisation (WHO) and Dr Tedros in turn was China's puppet in WHO

Rodrigues in his several informative articles has raised questions on the dereliction of duty and cover-up of China's questionable actions by the Director-General of (WHO).

Earlier today Rodrigues called for the people of India to unite and demand for the arrest of Dr Tedros, post the publishing of his article:

https://goachronicle.com/dr-tedros-must-be-arrested/

He took to social media platform Twitter stating:

Here are some of the Twitter messages demanding #ArrestDrTedros

> *Arrested and tried for crimes against humanity of unprecedented proportions. Also worldwide boycott of China forever. I won't buy anything Chinese as far as possible. #ArrestDrTedros #ChineseBioterrorism https://t.co/6CLrtofL88*
>
> *— Wg Cdr Nitin Purandare (Retd) 🇮🇳 (@nitinpurandare) April 11, 2020*

Rodrigues opines : *"The World Health Organisation under the leadership of its Director-General Dr Tedros Adhanom Ghebreyesus failed in its core responsibility to detect a health crisis and contain the spread of this contagious virus globally.*

It instead chose to side with China – the nation from which the coronavirus originates and was the first epicentre of the virus. It is from Wuhan, China that the China Virus has spread globally to reportedly 180 countries.

We can go pontificating on different theories of the blame game. The political leaders can continue to play their own political games. Nothing will ever change the truth.

The truth is that this is a virus that has come out of a lab. The truth is that China had knowledge about its human-to-human transmission as early as December. The truth is that Dr Tedros relied on the report of the Chinese Health Authorities in his statement on January 14, 2020, "No clear evidence of human-to-human transmission. The truth is that China has withdrawn the lockdown in Wuhan and city is back to normal business will the rest of the world is under lockdown.

But the most horrific truth is people are dying. They will continue to die. We have crossed 100,000 deaths but the count will not cease, it will only keep on increasing."

Whether Dr Tedros is arrested is a question that can only be in answered in time but what is important to state the noise to get him to step down from his post is certainly getting louder.

Tedros is met with treason and genocide accusations even in his own country, Ethiopia, but the government there simply doesn't have the balls to anger Tedros' allies issuing and arrest warrant to complete the investigation. However, the chief of Ethiopian military, as well as much of Indian media and population, don't seem to hold back anymore. It's doubtful he's ever going to step home again.

WHO CELEBRATES AS INDIAN HEALTH REGULATOR REMOVES IVERMECTIN FROM ITS COVID-19 PROTOCOL

Posted on June 8, 2021 by Naked Capitalism

After India finally gets somewhat of a grip on its deadly second wave, one of its health regulators just took away one of its main lines of defense.

India's Directorate General of Health Services (DGHS) has executed a policy reversal that could have massive implications for the battle against covid-19, not only in India but around the world. Hundreds of thousands, if not millions of lives, could be at stake. The health regulator has overhauled its COVID-19 treatment guidelines and removed almost all of the repurposed medicines it had previously recommended for treating asymptomatic and mild cases. They include the antibiotic doxycycline, hydroxychloroquine, zinc, ivermectin and even multivitamins. The only medicines that are still recommended for early treatment are cold medicines, antipyretics such as paracetamol and inhaled budesonide.

"No other covid-specific medication [is] required," say the new guidelines, which also discourage practitioners from prescribing unnecessary tests such as CT scans.

> *"Patients are advised to seek tele consultation; and Covid-19 appropriate behaviour must be observed such as mask, strict hand hygiene and physical distancing… [Patients are also advised to maintain] a healthy diet with proper hydration… [and] to stay connected [with family] and engage in positive talks through phone, video-calls, etc."*

The decision to remove ivermectin, multivitamins and zinc from the treatment guidelines is hard to comprehend given the current state of play in India — unless one assumes foul play. After suffering one of the worst covid-19 outbreaks since the pandemic began, resulting in the loss of hundreds of thousands of lives, India is not just flattening the curve, it is crushing it. And the widespread use of ivermectin, a potent anti-viral and anti-inflammatory with an excellent safety profile, appears to have played an instrumental role.

WHO's Happy

Other countries in the region have already taken notice. Indonesia just approved the use of ivermectin in Kudus, a local contagion hotspot.

This is the last thing the World Health Organization (WHO) and the pharmaceutical companies whose interests it broadly represents want. As such, it was no surprise that WHO was delighted with the DGHS' policy reversal. "Evidence based guidelines from @mohfw DGHS – simple, rational and clear guidance for physicians," tweeted WHO's chief scientist Soumya Swaminathan, of Indian descent. "Should be translated and disseminated in all Indian languages."

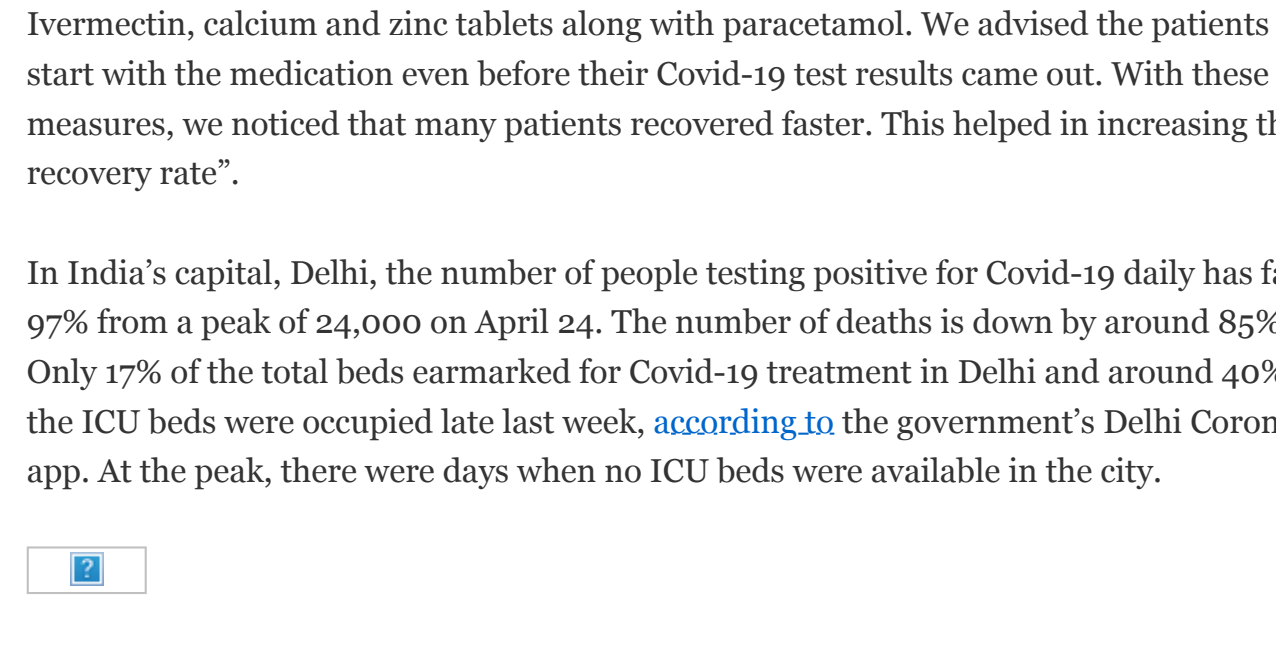
As I posited in my recent article "I Don't Know of a Bigger Story in the World" Right Now Than Ivermectin: NY Times Best-Selling Author, there are three possible explanations for global health regulators' opposition to the use of a highly promising, well-tolerated off-label medicine such as ivermectin:

- ***As a generic, ivermectin is cheap and widely available***, which means there would be a lot less money to be made by Big Pharma if it became the go-to early-stage treatment against covid.
- ***Other pharmaceutical companies are developing their own novel treatments for Covid-19*** which would have to compete directly with ivermectin.
- ***If approved as a covid-19 treatment, ivermectin could even threaten the emergency use authorisation granted to covid-19 vaccines***.

It's worth noting that while India's DGHS has dumped most cheap off-patent treatment options against Covid, including even multivitamins, more expensive patented medicines continue to get the green light. They include Gilead's prohibitively expensive antiviral Remdesivir, which DGHS continues to recommend for "select moderate/ severe hospitalised COVID-19 patients", even though "it is only an experimental drug with potential to harm." It has also authorised the use of the anti-inflammatory medicine tocilizumab, which costs hundreds of dollars a dose.

Crushing the Curve

The DGHS began recommending the widespread use of ivermectin as early as April, in direct contradiction of the recommendations of the World Health Organization. Treatment packs were assembled in many states and distributed to patients testing positive for Covid. In at least two states — Goa and Uttarakhand — the medicine was distributed as a preventive. As has already happened in over 20 countries where ivermectin has been used — from Mexico, the Dominican Republic and Peru to Slovakia, the Czech Republic and Bangladesh — case numbers, hospitalizations and fatalities have fallen in almost vertical fashion. On Monday the country recorded its lowest number of new cases in 61 days.



"When we started seeing more cases, we decided to take up a door-to-door survey," Bagalkot District Health Officer Dr Ananth Desai told *New India Express*. "When the health officials noticed people with symptoms during the survey, they tested them immediately and provided them with home isolation kits, which had medicines like Ivermectin, calcium and zinc tablets along with paracetamol. We advised the patients to start with the medication even before their Covid-19 test results came out. With these measures, we noticed that many patients recovered faster. This helped in increasing the recovery rate".

In India's capital, Delhi, the number of people testing positive for Covid-19 daily has fallen 97% from a peak of 24,000 on April 24. The number of deaths is down by around 85%. Only 17% of the total beds earmarked for Covid-19 treatment in Delhi and around 40% of the ICU beds were occupied late last week, according to the government's Delhi Corona app. At the peak, there were days when no ICU beds were available in the city.

Out of the Darkness, But For How Long?

Just over four weeks ago India was in a very dark place. At one point it was accounting for almost half of all global cases and one in every four covid-19 deaths. The government had lost complete control. Four weeks later, the country, while not out of the woods, is in a much better place. While the official numbers of cases and deaths are probably still a fraction of the real numbers, the trend is clearly moving in the right direction.

An important reason for that is that doctors in India have been treating covid patients as early as possible — something that isn't happening in most countries, particularly rich ones that play an outsized role in setting global health policy. In India early treatment has helped to reduce the number of cases becoming acute. And that has helped to reduce the pressure on hospitals and vital resources such as oxygen. Ivermectin also appears to have helped reduce the spread of the virus, thanks to its potent anti-viral properties.

Just about everywhere ivermectin is used, the number of cases, hospitalizations and deaths fall precipitously. Of course, this is only a temporal correlation. But nonetheless a clear pattern across nations and territories has formed that strongly supports ivermectin's purported efficacy. And that efficacy has been amply demonstrated in dozens of clinical studies and multiple meta-analyses. But it's not proof enough for global health authorities, which have set the bar for ivermectin so high that it's almost impossible to straddle.

Of course, other factors such as lockdowns, travel restrictions and increased herd immunity have also played a part in India's rapid turnaround. But vaccines' role has been minimal given that just 16 doses have been administered per hundred people. It's going to take many more months, if not longer, to vaccinate a majority of the population. In the meantime, hundreds of millions of people will remain unprotected from the virus. Many will end up catching and transmitting it. Yet the Directorate General of Health Services has taken away one of the country's only lines of defense.

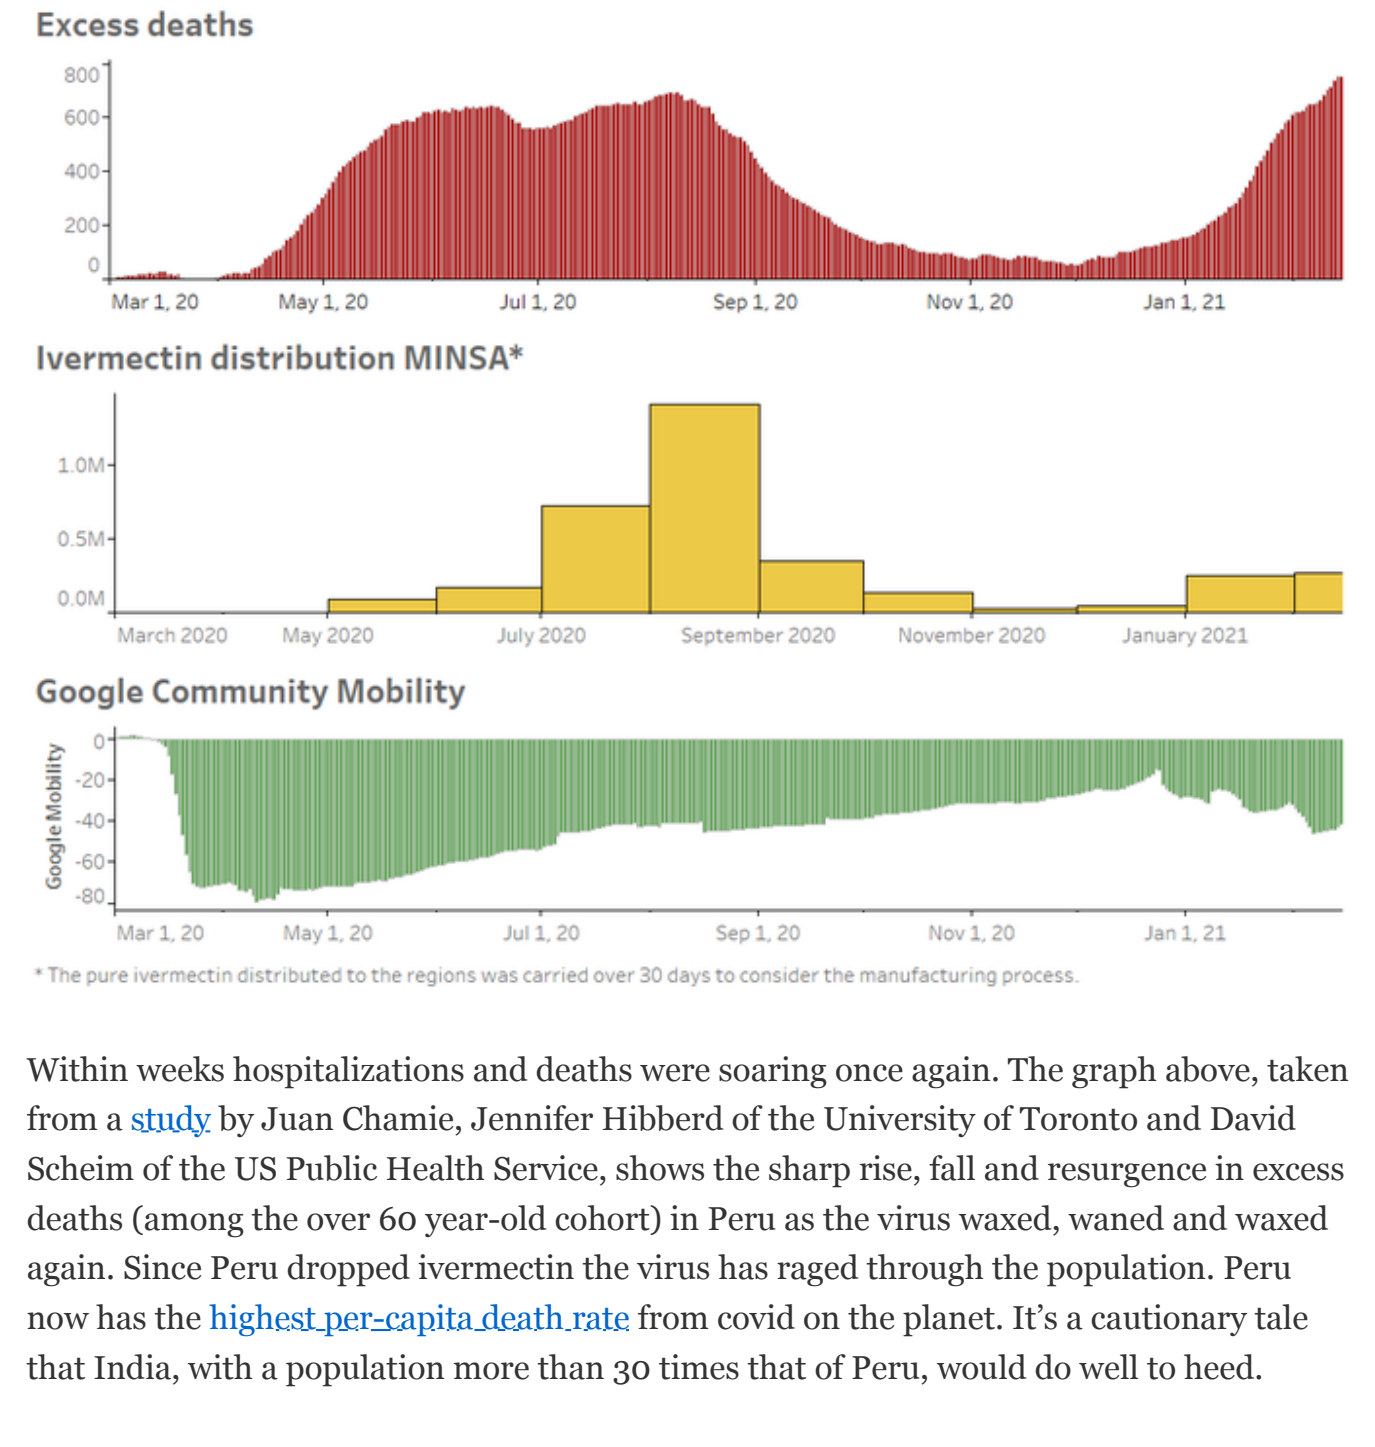
It remains to be seen whether state governors and health bureaucrats will comply with the recommendations. For the moment the separate treatment protocols recommended by India's Ministry of Health and Family Welfare (MOHFW) and the Indian Council of Medical Research (ICMR) continue to include ivermectin. As such, many doctors are likely to continue prescribing the medicine. But what happens if MOHFW and ICMR follow the DGHS' lead and also drop ivermectin. Will doctors stop using a medicine they know to work against a virus that has already caused so much devastation?

India's most populous state, Uttar Pradesh, has been using ivermectin since last summer. In this second wave the turnaround was so dramatic that even the World Health Organization (WHO) showcased its achievements. In a May 7 article titled "Going the Last Mile to Stop Covid-19" the WHO noted that aggressive population-wide health schemes, including home testing and "medicine kits", had helped regain control of the virus. But what the WHO failed to mention is what was in those medicine kits.

Instead, three days later WHO's chief scientist Soumya Swaminathan, of Indian descent, tweeted out a reminder that ivermectin is not recommended to treat covid-19 patients. The tweet included a press release issued by the company that manufactures the drug, Merck, saying it had found no evidence to support the use of ivermectin in the treatment of COVID-19. Merck, it's worth recalling, is developing an antiviral compound, molnupiravir, that will have to compete directly with ivermectin, one of the cheapest, safest drugs on the planet — unless, of course, ivermectin is taken out of the picture.

A Cautionary Tale

But if that happens, the result is likely to be a lot more deaths. Peru, the first country to use ivermectin against Covid, is living proof of that. The medicine was first used in eight states during the very early stages of the pandemic (May-July). After showing promise, it was extended to the whole country. Excess deaths dropped 59% (25%) at +30 days and 75% (25%) at +45 days after day of peak deaths. But in October, after the first wave had been brought under control, a newly elected government in Lima took the inexplicable step of withdrawing a number of medicines, including ivermectin, from its treatment guide for the disease.



Within weeks hospitalizations and deaths were soaring once again. The graph above, taken from a study by Juan Chamie, Jennifer Hibberd of the University of Toronto and David Scheim of the US Public Health Service, shows the sharp rise, fall and resurgence in excess deaths (among the over 60 year-old cohort) in Peru as the virus waxed, waned and waxed again. Since Peru dropped ivermectin the virus has raged through the population. Peru now has the highest per-capita death rate from covid on the planet. It's a cautionary tale that India, with a population more than 30 times that of Peru, would do well to heed.

WHOA!! WHO LEADERSHIP FACES DEATH PENALTY IN INDIA FOR MURDER THROUGH MEDICAL MISINFORMATION ON IVERMECTIN AND HCQ
